

Live-Cell Microfluidic Platform – Unlocking Novel Biomarkers, Cell-Based Assays and Diagnostics

Cellanyx Diagnostics News – Announcement of New Board Member Dr. Pravin Chaturvedi

February 1, 2013

Cellanyx is pleased to announce the appointment of Dr. Pravin Chaturvedi to its Senior Advisory Board. Senior Advisory Board (SAB) members play a vital role in a company as they help better understand the market, assess financial conditions that will continue to strengthen the company, and advise on clinical, strategic, and technical developments. Importantly, Cellanyx's SAB members share business, scientific, process and regulatory practices that keep the company operating according to the highest standards.

Dr. Chaturvedi comes with extensive business and leadership talent. Currently, he is involved with IndUS Pharmaceuticals as Chief Executive Officer and with Napo Pharmaceuticals as Chief Scientific Officer. He is a serial entrepreneur and has been the founder or co-founder of Oceanyx, IndUS and Scion Pharmaceuticals. Dr. Chaturvedi is or has previously served on the Boards of Scion, IndUS, Oceanyx, FuelEd, Sindu and TiE Boston.

Prior to founding Oceanyx, IndUS and Scion Pharmaceuticals, Dr. Chaturvedi, spent several years at Vertex Pharmaceuticals as the Head of Lead Evaluation, where he participated in the discovery and development of novel antiviral and anti-inflammatory drugs. Dr. Chaturvedi holds a Ph.D. in Pharmaceutical Sciences from West Virginia University and a Bachelor's in Pharmacy from the University of Bombay.

Dr. Chaturvedi is eager to gain a more in-depth understanding of the cancer diagnostics sector, tour Cellanyx's facilities and begin service to the Board. Cellanyx expects that he will bring strong insights and great value to the organization.

Cellanyx is combining advances in microfluidics, bioengineering, machine vision and cellomics to provide a state-of-the-art live-cell cancer diagnostic solution.
